

# UPCHARGE MANAGEMENT & PAYMENT SOFTWARE

The UpCharge Charging software is your all-in-one electric car charging infrastructure. Powerful, beautiful and Australian developed. With an intuitive UI, it is easy to manage and boasts features that cater to both facility and fleet managers, it is the most comprehensive charging solution in the market today.

- Compatible with every OCPP compliant EV Charger
- Take control & start billing for use
- Charge by time or kWh
- Payment via QR code or App
- Prevent supply overload with Dynamic Load Management
- Real-time monitoring and management

**EARN UP TO \$500 PER  
MONTH, PER CHARGER**

Made in  
**Melbourne** with  
love by EVup
